Here I Am!

HOME for Kids Awaiting Homes

Last month I asked you to be praying for homes for the children at HOME. Of course that meant I was asking you to pray for adoptive homes for the children who are temporarily in our care at HOME.

But this month I am asking you to pray for HOME—the place where these children stay until God provides a permanent home.

On the last page of this newsletter you will find an appeal to join us in some serious fasting and prayer for the financial needs of HOME (as well as for WAMM in general).

Details as to what have prompted this call for prayer are contained in the invitation so I won't repeat all of that here.

I will stress that the finances for supporting these children while they are in our care has increased dramatically this year.

Since we believe that Jehovah Jireh intends to live up to his name (God Our Provider) it is reasonable to bring these needs to him.

Please take some time to read the flier on the last page—I believe it will help

This girl is the joy of the children's home. Always happy and giggling. She is doing very well with her school tutor that comes and gives her lessons 2x a week. Her favorite thing is playing the game- Connect Four. She can't get enough and will tell you where to put your tile so she can be the winner 😊. She did have an accident/trying to turn her wheelchair on her own and took a fall. She recovered well but it was very frightening for all.

This little guy loves to swing and be with people but does struggle with sharing. He loves playdough and magna tile blocks. He is scheduled for surgery in November to try and help correct his feet. Please pray for funds to cover that cost. He currently uses a walker to assist him but he doesn't like to use it.

Will You Fast and Pray With Us?

When: Each Monday Until 2025 Ends

For What: An Increase in God's Provision for WAMM

Why: So Our Eyes Are On Him When He Provides

At the beginning of 2025, using as much due diligence as we could muster, West African Mercy Ministries developed a budget that we believed would meet the needs of our children's home, House of Mercy (HOME). We were feeling pretty good about that until February came around. It was then that the Government of Ghana decreased the Cedi/Dollar exchange rate from 15/1 to 10/1. That meant each dollar we sent to HOME instantly became 33% less valuable.

As a result, 2025 became the most challenging year in our 20-year history when it came to financing. What has been God's response? Instead of increasing our income he recently chose to increase the number of children in our care to 19, the most we have ever had.

Why would he choose to respond like this? I believe it was to focus our attention directly on him through prayer. That way we will not miss it when he provides.

Will you join us in a weekly time of fasting and prayer? I am not sure why it matters to God that I don't eat when I pray, but I cannot deny that fasting and prayer is something he calls us to do. So, in obedience and anticipation we are setting aside each Mondy through the end of the year to call out to God for his provision for the children at HOME and we would appreciate you joining with us. If you can't fit every Monday into your schedule, please join us when you can.
